Public outreach activities

Parts of my research have been used at a number of public events, performances and workshops, with varying degrees of support from me or my colleagues, including:

1. Real World Studios "Experimental Audio Camp residential," 2-4 June 2023, Bath, UK [\[link\]](#).
2. International Broadcasting Convention (IBC) "5G and The Arena of The Future for XR Events" accelerator, where I served as their champion, 9-12 Sep. 2022, Amsterdam, The Netherlands. [\[link\]](#)
3. International Broadcasting Convention (IBC) "Immersive Audio and Sound Imagery" accelerator, where I served as their champion, 3-6 Dec. 2021, Online. [\[link\]](#)
4. National Gallery exhibition "Sensing the Unseen, Step into Gossaert's Adoration": the exhibition (Room 1 in the Main Entrance Hall), featured a number of acoustic pods with directional loudspeakers, used in conjunction with a surround sound system incorporating our immersive audio technology and software, 9 Dec. 2020 – 13 Jun. 2021, London, UK. [\[link\]](#)[\[link\]](#)
5. 12 Hours "A marathon for voice and Electronics" by composer Catherine Kontz exploring endurance as a concept in music and tests the extremities of human vocal ability. The performance used SDN/PSR and has since been turned into a binaural experience to accompany the video of the performance on 14 Feb. 2020 at Somerset House, London. [\[link\]](#).
6. WOMAD-at-home: a series of virtual concerts organised by Real World Studios, Oct. 2020. One of the acts, Blue Lab, stated "Outstanding plugin to make it even more of a live feel. [...] That was amazing to use, so that it feels like you are in the room with us when we are playing the live musing. [...]". [\[link\]](#) [\[link\]](#)
7. National Gallery X (NGX, the new experimental space of the National Gallery): with Z. Cvetkovic and A. Hossaini [\[link\]](#), I helped design the surround sound auralisation system.
